LOCATION Priest River, Idaho

EXPERIENCE

Associate › Davillier Law Group
JUNE 2024 – APRIL 2026

A career detour into law: a paralegal, then an associate upon passing the Idaho bar.

Senior Interaction Designer › Cisco Systems
JUNE 2020 – NOVEMBER 2023

At Cisco, I initially worked on Managed Services Accelerator, a SaaS product for managing network services. Since 2022, I have worked on a new network automation product.

- Collaborated with product managers, product owners, and stakeholders to plan and design design features
- Design work includes user journeys, conceptual diagrams, wireframes, high-fidelity UI mockups, and prototypes
- Produced detailed annotated design specs and worked closely with engineers throughout the development process

Senior Staff Designer › SiFive
FEBRUARY 2018 – MAY 2020

- Served as design lead for SiFive Cloud Services and its Core Designer and Chip Designer SaaS products
- Product-management work such as managing the feature roadmap alongside business stakeholders
- Design work included wireframes, prototypes, and visual design

Core Designer is used by Qualcomm and Intel, among other subscribers.

Product Designer › Seneca Systems
OCTOBER 2015 – APRIL 2017

- Conducted user research; created wireframes, task flows, and visual design for a web-based SaaS product
- Worked closely with developers, customer experience lead, and salespersons in an Agile environment
- Managed backlog; led sprint planning meetings & retrospectives

At Seneca, a startup backed by Y Combinator and Initialized Capital, I served as the sole UX designer for Romulus, a SaaS CRM for local governments. Romulus was adopted by a number of cities, including Chicago, Houston, Oakland, Miami, and Boston.

UX Designer/Developer › i360 LLC
NOVEMBER 2013 – APRIL 2015
